

Title: Language Development and Impairment in Children With Mild to Moderate Sensorineural Hearing Loss

Authors: Lorna F. Halliday, Outi Tuomainen, and Stuart Rosen

Journal of Speech, Language, and Hearing Research (2017), 60, 1551–1567

[https://doi.org/10.1044/2016\\_JSLHR-L-16-0297](https://doi.org/10.1044/2016_JSLHR-L-16-0297)

In the originally published article, the “MMHL Group” section on p. 1554 stated that “Nine of these children had a mild hearing loss ( $M = 32.16$  dB HL,  $SD = 4.84$ , range = 23–40),...”. The text should have stated that nineteen (19) of these children had a mild hearing loss. We sincerely apologize for this error.
