

## Participatory research: Full ethical approval

Joint. Co-constructed.  
I'll let you participate  
in my research work:

Take photos! Draw! Paint!  
Capture your experience!  
I'll make sense for you.

Marginalised voice  
amplified through my research.  
Silenced; no longer.

My research data.  
Your story. What's yours is *mine*  
to use and to keep.
