

## Correction

### **Correction: Khemka et al., “Dissecting the Function of Hippocampal Oscillations in a Human Anxiety Model”**

In the article “Dissecting the Function of Hippocampal Oscillations in a human Anxiety Model” by Saurabh Khemka, Gareth Barnes, Raymond J. Dolan, and Dominik R. Bach, which appeared on pages 6869–6876 of the July 19, 2017 issue, the Results section referred to a panel *C* of Figure 4, which does not exist. The bold-typed reference link to Figure 4*C* listed on page 6874, first column, last paragraph, line 7 should be removed from the sentence “To analyze this modulation, we averaged gamma (30–80 Hz) power for each point in time, and analyzed spectral modulation (1–30 Hz) of this gamma power envelope for each trial.” This error does not affect any of the conclusions or interpretations in our paper. Mention of Figure 4*C* has been removed from the online PDF version.
