Contents

- House of Commons Select Committee Report
- SHERPA
- The Future?

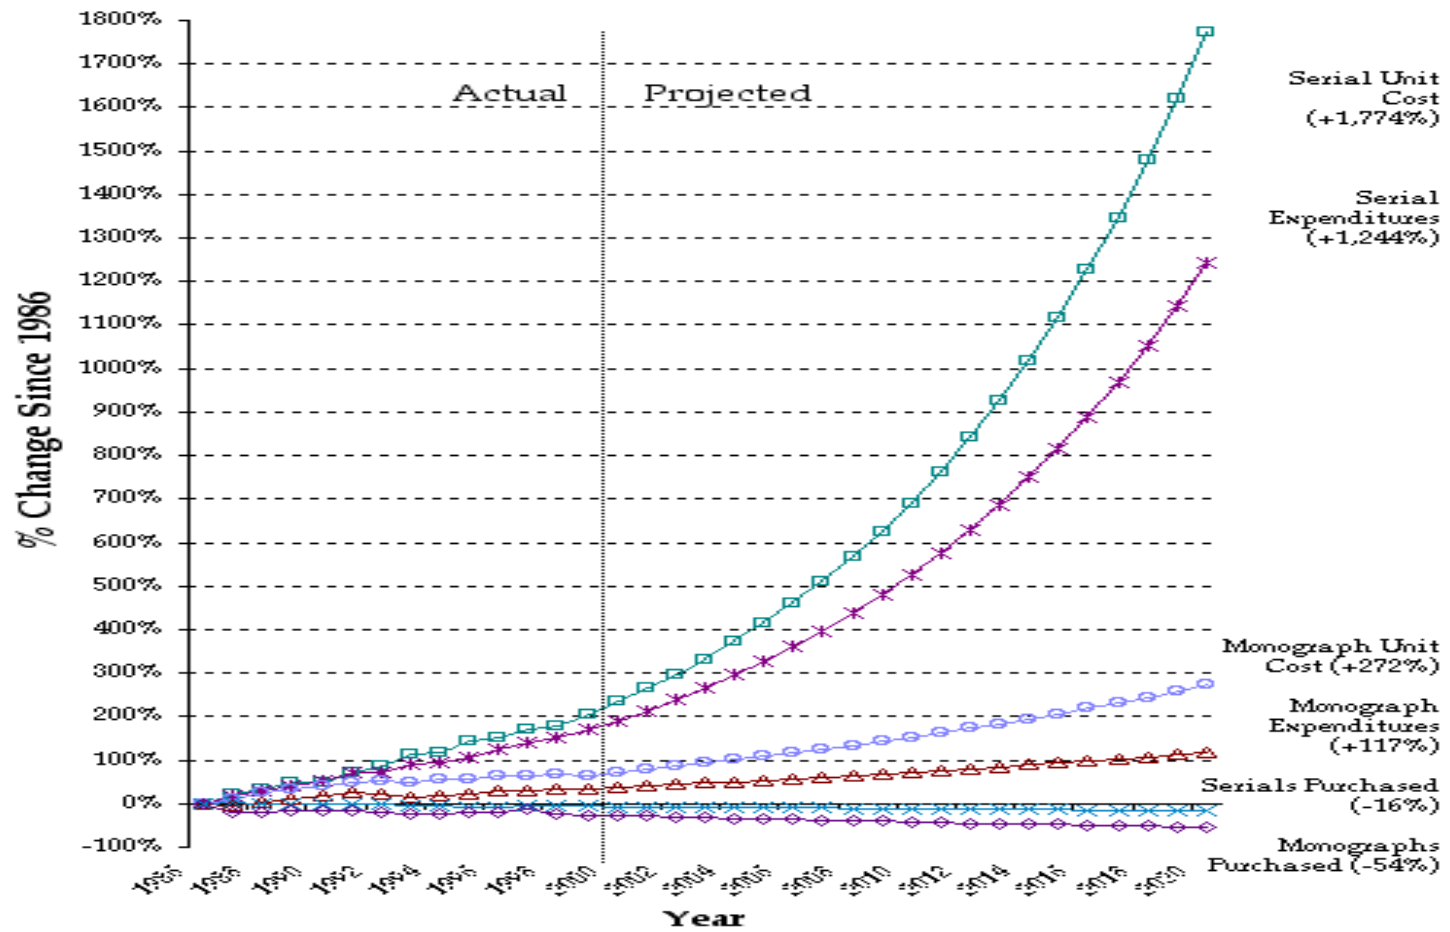

Free for All?

- A Report from the House of Commons Select Committee on Science and Technology
- Published on 7 July 2004
 - at <http://www.publications.parliament.uk/pa/cm200304/cmselect/cmsctech/399/39904.htm>

Periodical price increases mapped against the Retail Price Index in the UK

Monograph and Serial Costs in ARL Libraries, 1986-2020 Scenario 1 Projections

The Report

- Takes a broadly sympathetic view of library concerns:
- Advocates action by Universities, funders, publishers and Government
- Open Access is a possible, and fruitful, way forward

Contents

- House of Commons Select Committee Report
- SHERPA

SHERPA

- A UK repository with 7 Development and 6 Associate Partners:
- Centred on research-intensive universities
- Uses the OAI-PMH protocol as a Data Provider

SHERPA

SHERPA aims to investigate issues to do with the future of scholarly communication and publishing. In particular, it is initiating the development of openly accessible institutional digital repositories of research output in a number of research universities. These so-called 'e-print archives' will contain papers by researchers from the participating institutions.

The project will investigate the IPR, quality control and other key management issues associated with making the research literature freely available to the research community. It will also investigate technical questions, including interoperability between repositories and digital preservation of e-prints.

This site also hosts the [Publishers Copyrights Listings \(ROMEO\)](#) service, which lists publisher's copyright transfer agreements.

SHERPA: Securing a Hybrid Environment for Research Preservation and Access.

SHERPA is funded by [JISC](#) and [CURL](#). It is hosted by the [University of Nottingham](#).

SHERPA

- Funded by JISC and CURL
 - at <http://www.sherpa.ac.uk/>
- Perceived as a European exemplar in Open Archiving alongside DARE
 - <http://www.surf.nl/en/themas/index2.php?oid=7>

SHERPA

- Pre-Prints or Post-Prints of journal articles
- Largely based in Science, Technology and Medicine
- Advocacy to academics obtains content
- Software platforms are E-Prints or D-Space

Issues

- Costs of maintaining infrastructure
- Advocacy to academics
- Copyright

Issues

- Costs
- For local hardware and IT are negligible and can be absorbed
- £3,900 per library
- Central costs at Nottingham for staff
- £142,500 per year

Advocacy

- The hardest activity of all...
- What buttons to press?
- Greater visibility for academics' work
- Work is more likely to be cited more frequently
- Link to RAE activity at institutional level
- Funders mandate deposit in an Open Archive repository.....?

Copyright

- Universities need institution-wide IPR policies
- UCL has Copyright policy for staff and students
 - at <http://www.ucl.ac.uk/Library/scholarly-communication/ipr.shtml>

Copyright

- Authors need to be encouraged *not* to sign copyright away as a condition of being published
- Licence to publish is a better model
 - see http://www.ucl.ac.uk/Library/scholarly-communication/Model_licence.pdf

Copyright

- Commercial publishers will allow deposit of a pre-print or a post-print in an Open Archive repository
- Guide to deposit conditions can be found on the SHERPA Romeo site
 - at <http://www.sherpa.ac.uk/romeo.php>

- House of Commons Select Committee Report
- SHERPA
- The Future?

The Future

- House of Commons Report sees a nation-wide web of Open Archive repositories
- Funded by Government, the Research Councils, other funders, Universities?

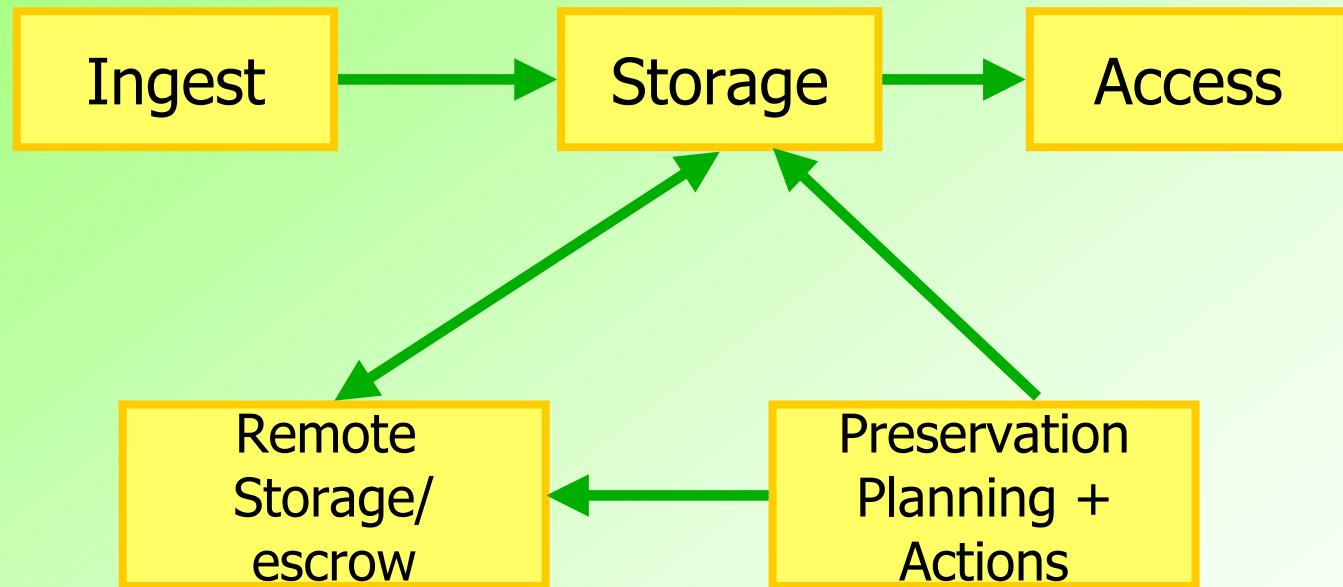

The Future

- **SHERPA Road Map**
 - Coordinating body to represent repository users
 - Offer a forum for collaborative work
 - Guide development of repositories in UK HE
 - Influence the development of repository software
 - Influence the development of service provision for search and integration services
 - Investigate and advise on the needs for preservation of eprint material
 - Investigate and advise on Copyright & IPR issues and liaison with publishers
 - "Public face" of UK-HE repository movement

Work has begun

- SHERPA DP funded by JISC 4/04:
- To develop a persistent preservation environment based on the OAIS reference model, including a set of protocols and tools
- To explore METS for packaging metadata and content
- To explore Open Source tools and software in this context
- To create a Digital Preservation User Guide

SHERPA DP Model

Conclusion

- House of Commons Select Committee has set the context
- What will the Government response be?
- What will further funding rounds be devoted to?
- Can SHERPA achieve its vision?
- We must wait and see.....

Questions?

- Over to you!!
